

Here is some of the feedback that pupils at Trewidland Primary School gave when they were asked what is good and what needs improving about the school:

#### Good things

The big field: It important to have a

large space for running around and PE.

Large classrooms: Big spaces for learning are important.

Good health and safety rules:

have a safe environment to learn in.

Easy fire exits: We all know where a safe clear exit is wherever we are in the school.

Helpful staff: They all are fun and explain things well.

Loads of PE: It's important to get exercise as well as learn new skills.

Suitable quiet area: An area to relax or just sit down.

Nice family ethos

Often outdoor education: Is good to have

outdoor education as well as indoor education

Snacks: They are nice as well as healthy

#### Things that need improving:

The school stage:

A room for school council to meet in:

Improve playground equipment:

More books for children to read/learn from:

music room:

A bigger car park:

Bigger school dinners

Bigger preschool playground

noisy boy's toilets

More audio equipment

more classroom resources

Bigger toilets

Our school stage could be bigger and quieter, we need a bigger carpark because most cars end up parking on the lane and then other cars can't get past, the noisy boy toilets scare the boy pre-schoolers, everyone agrees that the school dinners are too small they are the right size for the younger ones but not the older ones, the preschool playground could be bigger because there are now getting more and more pre-schoolers
